Dear Mr. Hurtubise,

I learned from Mme. Doria of Edition Mame that my series of essays "La Force du Quotidien", to come out shortly in Paris, is also going to be published under your name. This is a pleasure and an honor for me.

I shall attend a conference on "Open Circuits: The Future of TV" at the Museum of Modern Art in New York in January, and this might give me a chance to go to Canada and meet you. In that case you might take advantage of my presence to launch the book? Would the first days of February suit you? I should also like to meet Canadians, (I never went there), and possibly give a few lectures. Would that be feasible?

Please write me to the above address, with copy to my postal "center": Kufsteinerstrasse 4, 3. Stock, Muenchen 80.

I repeat the pleasure I feel to work with you and I am, dear Mr. Hurtubise,

sincerely yours,
